

Probus 10km - Sunday 13th September

Derek Marsh was holidaying in Cornwall and happened to find a 10km race going on in the small village of Probus which he duly entered. Derek recommended the race as very well organised and friendly although he disagreed with the course description of undulating and found it very hilly. Derek ran a slower than usual time because of this and finished 111th of the 126 finishers with a time of 64 minutes.

Cusworth 10km - Sunday 27th September

This was the first staging of this race and Derek Marsh was there to represent Retford AC, Derek improved his time dramatically from the Probus race and finished in 57 minutes 56 seconds to claim 209th position from a field of 264.

The Clumber Park 10km was held on the same day as this event and although there were Retford athletes involved no results have been posted yet.

Another recent race has yet to produce full results this being the Bawtry Forest trail race, though congratulations are passed on to Becky Duggan who managed to get into the prizes as 3rd placed lady.
